Laws Foundation College**

**Annual School Plan  
2024/2025**

## **A. Our Belief and Vision**

We strongly believe that

- the overall aims of education for the 21<sup>st</sup> Century should be enabling every student to attain all-round development and to be equipped with life-long learning capabilities;
- our priority should be enabling students to enjoy learning, enhancing their effectiveness in communication and developing their creativity and sense of commitment;
- all students are unique and their potential and multiple intelligence can be fully developed if ample opportunities are duly provided; and
- the development of our students' multiple intelligence helps to strengthen their confidence and to bring out their giftedness.

## **B. Our Mission**

We commit ourselves to creating a loving and harmonious learning environment which helps our students

- develop self-esteem and optimism;
- pursue knowledge and truths, accept multi-cultures and have a world vision;
- think creatively and cope with changes;
- undertake the responsibility to serve families, individuals and communities;
- better understand Chinese history and culture; and
- be concerned with the development of our country.

We strive to create a professional environment to

- encourage professional collaboration and cultivate the culture of quality assurance;
- make good use of educational research to enhance teaching and learning, and also to promote our teachers' professional development; and
- facilitate an innovative curriculum development in response to the needs of students and social changes;

for developing an effective partnership network among our school, our students' families and the community towards the accomplishment of the vision of 'all-round development for students'.

## **C. Major Concerns of this academic year**

- To fully utilize students' learning possibilities, unleash their full capabilities, and maximize their academic accomplishments;
- To drive learning and teaching effectiveness to new heights through innovation and continuous refinement; and
- To further nurture a positive school culture and school norm through other learning experiences and extra-curricular activities.

**Major concern 1:** To fully utilize students’ learning possibilities, unleash their full capabilities, and maximize their academic accomplishments

In the past academic year, our students eagerly took part in a variety of educational events and competitions, demonstrating remarkable achievements in the HKDSE 2024 across core and elective subjects. With the comprehensive gifted education plan, our students were actively involved in gifted and STEAM events and competitions. Through diverse workshops and visits, students had the opportunity to expand their horizons and explore new possibilities for themselves.

There are several targets in place to fully utilize students’ learning possibilities, unleash their full capabilities, and maximize their academic accomplishments.

- To continuously inspire students and drive them towards excellence in their academic goals and become an independent learner
- To enhance the cultivation of students’ talents and leadership abilities, further strengthening students’ sense of national and global identity and appreciation of proper values and attitudes and Chinese culture
- To guide students in exploring diverse paths for life and career planning, empowering them to expand their horizons and embrace new opportunities

**Major Concern 2:** To drive learning and teaching effectiveness to new heights through innovation and continuous refinement

In the past academic year, the effectiveness of learning and teaching was enhanced through various methods. These included strengthening middle management capacity, conducting focused lesson observations, facilitating teacher exchanges through staff development, and enhancing the curriculum for National Security Education and Values Education.

There are several targets in place to drive learning and teaching effectiveness to new heights

- To enhance professional capacities of teachers
- To enhance learning and teaching effectiveness through strengthening teaching capacities of teachers
- To enrich the content taught in National Security Education and Values Education

**Major concern 3:** To further nurture a positive school culture and school norm through other learning experiences and extra-curricular activities

Our school cares about fostering a sense of national and global identity, healthy lifestyle and development of generic skills. These aspects are essential for the holistic development of our students, shaping them into responsible and well-rounded individuals. For National Identity, the inclusion of patriotic activities and the integration of history should be our focus to instill a sense of pride and belonging among the students. Mental health awareness campaigns, including workshops and seminars were organized to raise students' awareness about the importance of maintaining a balanced and healthy lifestyle. It is also important to embed generic skills throughout the curriculum and provide opportunities for students to apply the skills in various contexts.

1. To develop self-discipline, law-abiding, sense of responsibility and value education
2. To increase students' sense of national identity and promote national education
3. To cultivate students' different skills and abilities in leadership
4. To create a positive school culture and enriched school life
5. To promote mental health among our colleagues and students
